

Hi Who may this concern

As deaf person who is involved in the hearing community strongly My Hearing aide is my Life with out it I'm a mute so its very important that we have better support from the Government The service that Australian hearing provided for under 21 is wonderful live the life of free and once your over it in the back of your mind is a negative thought what happens if that or this and from a deaf person its hard to take as we deal with it everyday so would be nice to put yourself in our vision its simple put ear plug in and do it for a day then people in general will understand I hope this email finds you safe and well hope all goes well for all us hopefully you will find a win win solution cheers
