

July 10<sup>th</sup>

Dear Sir, Madam.

We wish to express our concern as service citizens at the huge increase in our spending on petrol (one car only) and petrol all foods. There is a tendency to increase prices on every thing, also with fuel, electricity, gas, rates for water and even more so. Our tax we came from Britain so our pensions are fixed, and we find even with saving and sound invest we are finding it difficult. Of course we choose to live here we love it in Australia and

2

we became Australian citizens  
as soon as possible, we can  
vote, and feel we belong.

Due to some health problems  
my husband has many medical  
and hospital appointments, and  
cannot drive fast. We cannot  
drive but not for hospital stay

we keep healthy and exercise

we are in our late 70s  
thankfully we have excellent  
G.P. service Dental + SOON, which  
we are happy to pay for as  
long as we are able.

Yours sincerely-

Jan, Monica Thomas
