

Dear Sirjomedun.

Received a letter from W. H. Kidd. on
Friday. 20/7/04. I thank you very much for Replying -
The Godwin Centre has been living under threat.
Every time they have written to or asked for help.
They threatened to be put out. My Friend
a Kidney there is blind. Get very little help.
There have been 38 staff to my knowledge has left
or been put off. All because they have tried to help
the colder ones. The fact they can't eat because it is
too tough. Even the Palatios, they can't eat.
Party fees. Also some pieces are used at State
Present. Now they are talking about clearing the place
one week. My friend rang the Bagger 4 times yesterday
morning no one came. Has the fire been out as though
what I can never stand these places taken out of the
hands of governments. All for the sake of the mighty Dollar.
All my friend has left over is \$30 from pension.
Medication \$70 per month. There is a lady who has been
Head of Social Security in Canberra. If girls working under
her. Then went on to become a secretary for a Barrister.
Was taken down by a Con man. There would be plenty more
there with some circumstances. I have been a supervisor of
the age. I know they don't need the fancy food, not cooked
properly. They also need cleanliness. I hope things do improve
makes one ashamed to be Australian.

Yours Sincerely
E. Lewis
