Senate Review "Forgotten Australians" "Lost Innocents"

Senate Community Affairs Com
Po Box 6100 Parliament House
CANBERRA ACT 2600

Dear Committee,

It appears none of the previous Committees recommendations have been carried out by this present and past Labor governments in NSW.

I have wrote six letters to the present Premier Keen also to Gemma and Carr. out of all those I received one answer which did not apologise in any way or form. I asked about compensation and was told to try my luck with the NSW Commercial Compensation Scheme. I ignored this suggestion.

This present NSW government just don't care and it is obvious they just want us to get lost or by not doing anything. Think we the survivors will give up or die. This present NSW ^{Gov} have no compassion for any of us who were abused in all ways possible, because they could, all past NSW governments owed us a duty of care, so by neglecting to address any of your recommendations they show us what they are all about all I can say is shame on you. NSW government Bastards. I only wish they cared like Senator Murray did.

Yours in distress

Geel Beauchamp age 72.

PS I am in ill health so possible I want live to ever hear NSW Governments doing anything to help us, sadly deserted we will all go to our graves with all this pain. EB
