Inquiry into the Government's Green Loans Program

INTERIM REPORT

On 10 March 2010 the Senate referred an inquiry into the Government's Green Loans Program to the Environment, Communications and the Arts References Committee for inquiry and report by 21 June 2010. The Senate later extended the reporting date to 6 August 2010.

The committee received 181 submissions and held a public hearing on 29 June 2010.

Due to the prorogation of the 42nd parliament and the need to thoroughly consider the evidence it has received to date, the committee intends to table its final report as soon as practicable.
