

15.4.08

Dear Secretary,

My letter is written because I have very deep concern at the sexualisation of children which has reached very disturbing proportions.

We are members of the Inver West branch of the Australian Family Association, whose members and their families, relatives & friends are so alarmed at the spread of sexualisation in all areas of our lives. So much so that the brakes on our standards have failed sending decency overboard. Now, it is no surprise to see we are subjected to unbridled pornography.

Our request - that the Government tighten controls, especially regarding children.

We always make a special effort to support our Government. We ask that you keep our confidence in your effort for us, which we have been grateful for in the past.

Yours faithfully
(Mrs) Helena Knox
