

11<sup>th</sup> April 2008

Secretary  
Senate Standing Committee of Environment, Communications and the Arts  
Dept of the Senate  
Parliament House  
Canberra ACT 2600

I am concerned of the obscene advertising on billboards  
Sexualised merchandise of girls clothing that is very revealing  
Inappropriate TV Programmes and advertising that are in children's viewing hours  
and also the language that comes over the TV especially swearing.  
Sexualised Music Video Clips that children really take in and easy access to Pornography  
on the internet . . .

The enquiry by the Senators on these issues needs to be taken with lots of thought and  
responsibility for the sake of the children of today.

Yours sincerely,  
Norma O'Loughlin
