Senate Standing Committee on Environment,
Communications and Arts.

P.O. Box 6100

Parliament House

Canberra ACT. 2600.

Dear Member,

It has come to my attention that the
Australian Democrats have initiated an
enquiry which is well overdue to tighten
regulations for the protection of children
from hyper-sexualised images and messages
that are exposing them to adult themes
from every angle by the media long
before it is appropriate for them.

'The Womens Forum Australia' and 'The Australia
-lean Family Association' have submissions
already on this issue and I strongly support
their stand on this issue.

Our family values and our children's
childhood need protection please act to
protect them

Yours sincerely
Myrae Cabarles.
