

I am in support of a staff elected representative on the ABC board.

To do away with this position would compromise the integrity of the ABC and what it stands for. The question of introducing commercials into the ABC's format is a ludicrous proposition. The ABC produces and puts on the net and on the air high quality TV and radio programming, insightful comment, and no ads to sway programming one way or another. It is not appropriate for an independent media broadcaster to be commercially funded. It is also hardly necessary, given what it gives back financially to the Government.

Sincerely
Kay McKenzie
