

TAXATION SUBMISSION

The Secretary,  
Senate Economics References Committee,  
Room SG. 64,  
Parliament House,  
CANBERRA, 2600.

Dear Sir / Madam;

Multinationals, such as Woolworths, whose profits go out of this country with out paying little or no tax at all and haven't done so since 1953. Clive Cameron MHR said that the move would ruin this country. How right he was. Apart from the GST this would be is one of the greatest taxation injustices any government could perpetrate upon it's own people. Many Australians know it is for this reason the Governments have to sell off assets to get enough money to run the country. If all these greedy multi nationals paid their share of taxes a GST would not have been necessary. I dare say the Prime Minister would know this

The present Government should take look at a fairer means of collecting taxation. One many people have in mind is a Debit Tax where one needs to pay .33% on ever one hundred dollars transacted through bank accounts. This way the multinationals would have to pay their fair share of taxation.

We live in a democracy because we are allowed to vote in elections and be represented by those we elect but it appears the only winners in any election is the multinationals and hypocrisy

Being an aged pensioner I along with many other pensioners were led to believe we were going to receive a \$2000 pay out so as to help us over the GST but we received nothing. Food went up in price even before the introduction of the GST and since its introduction electricity, gas and now water has risen, so has medication. Plus many items have been taken off the pharmaceutical list which many of us need yet our pensions remain below what we really need.

I implore the Government to consider changing the Taxation system so as to make it less oppressive to the ordinary Australian.

Respectfully Yours

CHAS J. CANDEN,
