Dear Committee Members,

My family and Company have been affected by the defects in the self-assessment system, and I have had excessive GIC imposed upon me and have suffered loss and damage in terms of a long period of stress and financial difficulties.

I am one of the people whose treatment caused treasury to recommend the law be changed, but I am **excluded** from the benefits of the new laws. I believe that I deserve the protection of legislation for the past which I am locked into, and expect more certainty from the Tax office in future.

Yours faithfully.
