Dear Mr Hallahan

Please accept and use my submission as a response to your e-mail to me on the 22nd of June.

I appreciate this opportunity to bring again to government attention most serious developments in Australia that act against the best interests of Australians and their innovative, entrepreneurial and small business objectives.

The federal government has not yet recognised the revolutionary potential from investments made in Australia by Telecom Australia. As I was totally involved with their digital planning and its implementation, I write from a life time international business and personal experiences re these issues.

I hope it will lead to a revision of direction for Australians.

Yours sincerely

Allan J Williams

Director
