

TO WHOM IT MAY CONCERN

I strongly oppose the sale of Australian assets to foreign state owned entities , as we are in effect selling Australia's crown jewels to other countries. How will this benefit us in the long run???

We will lose control of our major resources, profits earned will be repatriated to foreign countries thereby affecting Australian jobs. How is this in the National interest???

All Australians need to wake up to what is happening to Australia's icons and the impact their loss will have on future generations i.e. our kids future! If we are not careful, there will be nothing left to sell and we will be at the beck and call of strangers who do not understand Australia's way of life and culture!

Do we really want this???

I say no!

Yours sincerely,

Mr Kim Smith
