

Committee Secretary, Re Foreign Investment, To Whom It May Concern, I fear if there is any more companies be acquired by overseas companies Australia will no longer be Australian. Do not sell off any investment in Australian Companies even if it is only a small percentage. Especially China which would not allow us to buy into their companies why should we allow them a say in our companies. There is too little left that is Australian owned and run. BHP wants to buy up shares in our company that wants to have an 18% share in our Australian company. Please don't let it happen. Marie Burton.
