National Industry Training Advisory Arrangements

C u r r e n t M o d e l

P r o p o s e d M o d e l

Benefits of the Proposed Model

- Increased industry ownership of the training system
- Streamlined regulation – business/commercial like approach is adapted
- Expanded training opportunities
- Regional and grassroots involvement
- Refined national framework that ensures relevant outcomes to industry – industry driven
- Improved access to and use of resources – funding will be on a dollar for dollar basis from governments and industry.
