**Subject:** stop nuclear waste

hi my name is michael bennett I have lived in Katherine NT all of my life. Over the 14 years I have lived here I have seen this town change in to a better comunity ie. the land. We have business in katherine and we are getting more tourism, so if you put the nuclear waste here we are losing the tourism of our community and we will be losing all most half of the money coming in to katherine.
