Subject: Radioactive Waste Dump in Northern Territory

Please do not allow Brendan Nelson's Radioactive Waste Dump Bill to advance anywhere past the paper it is printed on.

The distinct lack of information and secretiveness of government is disturbing. The acceptance of this Bill will lead to the importation of the world's nuclear waste and frustrating laws that seek to silence the voice of local community dissent.

The onus is on you for our children and our children's children sake.

Throw the THE COMMONWEALTH RADIOACTIVE WASTE MANAGEMENT BILL 2005 in the bin - you will be thanked for it.

James Cocking
