Subject: Nuclear Waste Dump Submission

Why on earth would anyone want a nuclear waste dump in their backyard, particularly in the Territory - we don't even have smoke stacks! We have the best natural environment in Australia. The government says it's safe, but in 20 years time is the government going to say "gee, we didn't think about the effect on our environment" but it will be too late for us. The government so desperately wants to over rule and dictate to the Territory on what we can and can't have. If it's so important to have a nuclear waste dump put it in Canberra, but oh no there are too many real voters there! Put it just outside of Katherine because we don't count! Nigel Scullion is a weakling and should not have been voted in by Territorians, we need someone who is going to cross the floor on this - perhaps we could make a swap with St. George, Queensland for Barnaby Joyce.

Kind Regards
Chrissy Harris
