**Subject:** NUCLEAR WASTE DUMP NEAR KATHERINE IN NT

After Lucas Heights being named a potential terrorist threat recently, how can we possibly be happy with a proposed site being planned near Katherine NT? Is the "low level" waste really low level? Is John Howard telling the truth. Does

I fully oppose the nuclear dump proposal near Katherine and fully object to inconsiderate consultation and access to information. How can we believe that any information is honest.

Please register me as a conscientuous objector to the proposed Nuclear Waste Dump near Katherine.

When will Senator Scullion and Dave Tollner put their money where their mouth is!! We may live "in the middle of nowhere" far away from you Dr Nelson, because that's where we want to be, we pay taxes up here, so our objections do count.
