Subject: NoNukeDump - Comments to the Senate Committee

Below is the result of your feedback form. It was submitted by
(www@felix.nt.gov.au) on Thursday, November 17, 2005 at 22:46:24

introduction: This submission has been generated from the Northern Territory Government website <http://www.nonukedump.nt.gov.au> and has been forwarded at the request of the author and on their behalf. The Northern Territory Government has provided our constituents with an opportunity to send their comments to you but does not take responsibility for any views expressed in the following email:

Submission To

The Chair of the Senate Employment, Workplace Relations and Education Committee
Inquiry into the Commonwealth Radioactive Waste Management Bill 2005 -

comments: uncontrolled nuclear mining waste already enters
our future generations environment unheeded. to
put a further generation tax on our offspring by
storing nuclear waste at Katherine or other ill
considered sites will spread the alpha, beta & gamma emitters through kilometers of subterranean tunnels
which although underground will surface to plague beneficial use of these resources. No amount of filth you
call money will compensate for the spread of genetic disfunction for all creatures.
What's the problem with putting the nuclear waste back in the original extraction point may I ask, as this
seems to be an area pre-contaminated. The childish manner in which you broach this topic is
uncomprehending and defies reality. That our learned aboriginals can perceive an intrusive prospect with
these plans should send a warning to you plotters of witless covetings. Hide behind your 'laws' and tactless
aggressiveness for a while, as you can afford to, but history will know your lot. Crucify me and my right as
an Australian as that is my present life.
