Subject: Inquiry into Commonwealth Radioactive Waste Management Bill 2005

The Chair - Senator Judith Troeth
Senate Employment, Workplace Relations and Education Committee
Inquiry into Commonwealth Radioactive Waste Management Bill 2005

My wish is that no radioactive waste is dumped anywhere in Australia
I fear for our future generations and the unknown disaster they could face
I do not believe the project is safe for humanity or for the health of our planet

The trillions of dollars invested in nuclear energy is creating massive amounts of radioactive waste
There is pressure on eager countries to find somewhere to dump it and make more obscene profits

I do not believe Australia should be supporting this frightening industry

Andre Steyl
