Senate Employment, Workplace Relations and Education Committee

Inquiry into Commonwealth Radioactive Waste Management Bill 2005

It has come to my attention that you may soon be passing legislation to allow a nuclear waste dump in the Northern Territory. With so many terrible things happening in the world today we sometimes overlook or sideline environmental issues. It is my understanding that nuclear waste would still be a problem when our descendants are studying our era much as we study the ancient Romans. If this to be our legacy then I would have it known that it is something of which I am ashamed. How I will look my grandchildren in the eye when they ask what did I do to stop it.

Philip Thurstun
