Submission To

The Chair of the Senate Employment, Workplace Relations and Education Committee
Inquiry into the Commonwealth Radioactive Waste Management Bill 2005 -

comments: I say "no" to the nuke dump site. Canberra should start thinking seriously about some of the quick fix decisions that they make about our "lucky" country Australia especially this one considering "why don't we dump a nuke dump right in the middle of "No Where", how about Alice Springs. No one really cares just as long as you keep it away from them. Do you not think that this decision should be put into the hands of all those who it will affect. By the way I am just one of those concerned people who will also be affected by this too. Please give more consideration to the decisions that you make on behalf of all Australians. At least show us that you really do honestly care about each and everyone of us, yes including all of us up here in Alice Springs, Northern Territory. "You will never, never, know, if you never, never go"
