Submission To

The Chair of the Senate Employment, Workplace Relations and Education Committee
Inquiry into the Commonwealth Radioactive Waste Management Bill 2005 -

comments: I am writing to put forward my submission to the Senate Committee regarding the proposal for a Nuclear Waste Dump in the Northern Territory. As a Territorian, I am outraged with this proposal as the Australian Government has not been honest and asked the Australian people to have their say, let alone Territorian's who will have to live with the nuclear waste that will be dumped on their front door step. Furthermore, the Australian Government has not had the audacity to educate the public on this issue. I would bet my bottom dollar that most Australian's do not even know about nuclear waste, apart from the disasterous effects a nuclear bomb could have if was to be let off. I am not disagreeing with the fact that we have to dispose of this nuclear waste, just very disappointed about the Australian Government putting forward this proposal without consultation. I would be interested to hear about what other options may have been proposed for the nuclear waste disposal, so as an Australian can make up my own mind and be involved in the future development of my country. I suggest the Senate Committee defers the proposal for further consideration and consultation with the Australian people.
