introduction: This submission has been generated from the Northern Territory Government website <http://www.nonukedump.nt.gov.au> and has been forwarded at the request of the author and on their behalf. The Northern Territory Government has provided our constituents with an opportunity to send their comments to you but does not take responsibility for any views expressed in the following email:

Submission To

The Chair of the Senate Employment, Workplace Relations and Education Committee  
Inquiry into the Commonwealth Radioactive Waste Management Bill 2005 -

comments: The runoff of water from the ranges surrounding Mt Everard, lie within the area of the Lake Eyre Basin catchment area.

In addition, this is the also the catchment area for the watersupply for Alice Springs.

Please take consideration of the next 100 years+ and what spillage there may be into the water catchment area that allows a large proportion of people to live in the desert areas of Australia.
