Subject: NoNukeDump - Comments to the Senate Committee

Below is the result of your feedback form. It was submitted by
(www@felix.nt.gov.au) on Friday, November 18, 2005 at 14:42:15

introduction: This submission has been generated from the Northern Territory Government website <http://www.nonukedump.nt.gov.au> and has been forwarded at the request of the author and on their behalf. The Northern Territory Government has provided our constituents with an opportunity to send their comments to you but does not take responsibility for any views expressed in the following email:

Submission To

The Chair of the Senate Employment, Workplace Relations and Education Committee
Inquiry into the Commonwealth Radioactive Waste Management Bill 2005 -

confidential: yes

confidentialreason: I'm a very private person an I wish for my submission to remain confidential for my Childrens sake.

comments: I and my family are 100% against having a nuclear waste dump in the Northern Territory regardless of its location.

My beautiful children and I were all born and raised in the Territory and we are all extremely proud to be Territorians. We, like all territorians, have always enjoyed the fact that the Territory is a unique and diverse place to live. There is nowhere like it in the world.

We know that the Federal Government see the nuclear waste dump as a means of revenue raising and also to try to control nuclear waste so that future terrorists don't get their hands on it (both good and noble reasons), but the Federal Government can't and won't guarantee that there will be no threat to Territorians now and in the future.

I know that the Federal Government think that if they place a nuclear dump in "the middle of nowhere" that it will be ok (out of sight and out of mind) but it won't !! Territorians love the fact that we have wide open spaces regardless of where we live in the Territory. It may be "the middle of nowhere" for southerners and the Federal Government, but it's our home and we will do all we have do to protect our home from harm.

We share the Territory and all it has to offer with each other and to threaten our children and our children's children with a nuclear waste dump is the lowest of low. The Federal Government may as well be terrorists.
