Submission To

The Chair of the Senate Employment, Workplace Relations and Education Committee
Inquiry into the Commonwealth Radioactive Waste Management Bill 2005 -

comments: This decision to use the NT as the site for nuclear waste disposal is a political one. There were sites much higher on the list of preferred sites which included ACT and NSW. On such an important issue to deny the scientific recommendations confirms the political expediency of this decision I urge you to reconsider choosing the correct site according to science for the benefit of all Australia.
