Submission To

The Chair of the Senate Employment, Workplace Relations and Education Committee
Inquiry into the Commonwealth Radioactive Waste Management Bill 2005 -

comments: As a long term Liberal supporter and Territory resident I am very concerned that the Federal Government is taking advantage of it's current power base and imposing unwanted legislation onto the people of the Northern Territory without any form of community consultation or accountability. The Government's past endeavours to build a nuclear waste dump have been successfully fought by State Governments in the courts at much expense to tax payers. The NT Government does not have the opportunity for legal recourse, which is even more reason that the Government should proceed with a fair and just program of consultation and decision making processes. If John Howard decides to act as a political bull dozer I shall reconsider future support for him and his party.
