28<sup>th</sup> May 2003

To,

### The Honorable Australian Senators visiting Honiara.

As Chairman of the Manufacturers Association of Solomon Islands, I welcome the opportunity to present this paper. I am sorry I cannot attend this luncheon as I am still recovering from major surgery here in Honiara.

I would like to thank the Australian taxpayers for their contribution through Aus-Aid and the CPRF project for the opening of the road from Honiara to West Guadalcanal Lamby.

Aus-Aid provided the logistic support with the local communities for labour. This is a local community initiative put together by 2 Chiefs, David Humphries and Joseph Tausuli.

The project started October 2002, since then there has been 25 village people working continuously for 5 days with no pay. There has been up to 10, 3 tonne trucks carting gravel for road patching and concrete works.

The photos show the concreting of the causeway of the Maravovo River. The area is known as Selwyn College crossing. This entire road project is being overseen by a Solomon Island engineer, Martin Wale.

Joseph Tausuli has provided a CAT 980 loader (pictured), a D60 bulldozer and a log skidder where necessary. Gold Ridge Mining Co. has provided a CAT grader and excavator for the project. Aus-Aid has provided fuel and some spare parts for all the machinery and a small wage for the drivers. But everybody else on the project are volunteers. There is still some work to do on the bridges and drainage and gravelling on a 1 kilometre steep hill. And then the work will be finished at the end of July 2003.

This has been a huge undertaking by the community to put this road back into service after the war. The benefit to the rural area of west Guacdalcanal is huge, already the once dormant copra industry is starting to re-establish because of being able to get their copra to the buyers in Honiara. There is between 80 and 100 bags of copra a day, which represents \$8,000 going back to the communities.

To you, The Honourable Senators of this fact-finding mission, again I say thank you. This pilot project has been successful and we are looking forward to similar projects to be repeated to other areas.

Yours faithfully,

J. Valhatts

John Vollrath

Chairman
