Dr Kathleen Dermody
Committee Secretary
Foreign Affairs, Defence
& Trade
Australian Senate

(FN) (02) 6281-2014

Dear Dr Dermody

Your early response (16 May) to
my submission is appreciated.

1. I am agreeable to the submission
and my identity becoming public.

2. My concern for the Falun Gong
is really the 1917 Communist
capture of Russia and its Gulag
through its continuous history
of the Cold War to now, and

3. the history of the Falun Gong inside
Marxist China to now.

4. I trust that the Senate will
establish a committee (permanent)
with a watching/reporting brief for
that purpose.

Yours most civilly

John Kilgarriff Rogers

Kowtowing to china

ONCE a month, Alexander Downer signs a certificate banning adherents of Falun Gong from displaying banners and making excessive noise outside the Chinese embassy in Canberra. The Foreign Minister has been

Several years ago, some practitioners entered the grounds of the Chinese consulate in Melbourne and started holding a news conference. Most left when asked, but one person was removed by the police. Ruback says it is the only incident of its kind in Australia. You can draw your own conclusions why Australia finds it necessary, unlike other countries, to impose a statu

kind of values we hold so dear that we are prepared to go to war for them to see them blossom in Iraq and other countries in the Middle East — at least, that is our rationalisation after failing to find the weapons of mass destruction that were the original reason for falling in behind our other great and powerful friends: the Americans.
