

(d) copies of the evaluation reports for IT contracts that have been let, with information identified as commercially sensitive 'blacked out' and providing the reasons for such claims;

Enclosed are copies of the evaluation reports for IT contracts that have been let, with information identified as commercially sensitive blanked out. It is requested that the Committee consider these reports *in camera*.

Information has been blanked out of the ITO evaluation reports because it is considered commercially sensitive. OASITO has referred to the draft ANAO guidelines, entitled the 'Use of Confidentiality Provisions in Commonwealth Contracts - The Legal Framework and Guidelines Related to Confidential Information', to assist in the definition of commercially sensitive material.
