**Subject:** Re--Gold Pass !

Like most of the silent majority I have endured all these benefits that the elected members have amassed over the years. It is time that they take stock & like the rest of the workers forego there perks & come into line for the benefit of these people who elected them. We the undersigned feel strongly about this & hope common decency will prevail & Politicians will speak out themselves in support of what the electors want for a change. We live in hope.
