Dear Sir / Madam

I am writing to you regarding the news item in the Adelaide Sunday Mail on gold cards for has been done that ex politicians. Once a politician has retired from office that should be the end of that era. We should all be treated the same. I do not believe that the ongoing gold pass should continue especially for the wives or partners lets face it. I dont even get a pension. I am 71 years old and just because I saved my money and paid taxes since I was 14. I am not entitled to get what was and is owed to me. That was what the taxation was for, where is my pension and gold card? I am disgusted with our

system, get on the ordinary pension no wonder Australian people get upset with the ex-politicians and they are still having their day on T.V. I want to tell you what I say when they get out there. To you item a big NO, take all

benefits from the ex-politicians & their wives. let them live on their savings like I have too. They should have a lot more than me. Conner in fact, one can relate to the mosquito to an elephant with their nest egg.

Thanks
M. West
