Subject: Queensland Forced Amalgamations.

To whom it may concern.

The way the Queensland's State Government has handled Forced Amalgamations has been nothing less than scandalous, little enough time for submissions or dialog, arrogance in ignoring democracy, push polling, Lies, injustice, dictatorship.

This matter and the State Government badly need investigation.

This State Government is so incompetent it could not organise a beer in a brewery.

Yours sincerely,

Al Taylor.

The way Beattie has bulldozed the highly unpopular and dictatorial Forced Amalgamations deserves to be investigated.

Our democratic rights have been over run with arrogance and injustice, Australians did not fight so many wars, and too many die, to be treated this way.

Yours sincerely,

Al Taylor
