RE: WATER PRESSURE IN DIMBULAH TOWN

Dear Sir or Madam,

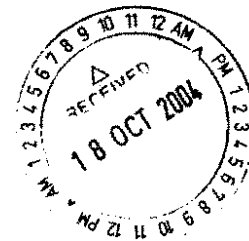

I have enclosed a petition that shows that the people of Dimbulah are concerned about the water pressure of our town. If you believe that such concerns are unwarranted please feel free to contact myself on 07 4093 5990 or discuss the matter with any other concerned member of the public.

I believe that a review of the current services is a reasonable request and would benefit the community greatly by providing peace of mind. I and many other concerned members of the public look forward to a positive response in relation to this matter.

Should you have any enquiries or require clarity as to what is asked please do hesitate to call me on the above mentioned number.

Yours faithfully

Joyce Ericson

**PETITION TO INQUIRE INTO THE CONCERNS REGARDING
THE WATER PRESSURE OF DIMBULAH TOWN
PRESSURE**

As residents it has been a going concern that the water pressure of the town of Dimbulah has become inadequate for the demands of the community. It is a further concern that there is a possibility that the water pressure is inadequate not only for domestic use, but also for the sustainability of essential services such as the fire brigade.

This petition is to enable fellows of the community to approach the council with these concerns on behalf of the community. The aim of this petition is to induce an independent review of the water services of the town of Dimbulah. Should you agree with the above proposal, please state your support by signing below.

DIMBULAH QLD 4872

Dear Sir/Madam

DIMBULAH TOWN WATER SUPPLY

Consumers and landowners are hereby advised that the level of service provided by the Dimbulah Town Water Supply does not meet the minimum guidelines with respect to Fire Fighting as published by the Department of Natural Resources and Mining for the Planning and Design of Urban Water Supply Schemes. Upgrading of the scheme at this time to meet fire fighting guidelines is considered to be beyond the financial resources available for the Dimbulah Water Supply Scheme. Accordingly, Council suggests that individuals and businesses make an assessment, or engage an appropriately qualified person to make an assessment, of fire protection services that are required and/or are appropriate for their property and consider what fire fighting aids should be installed to protect their premises.

Should you have any queries with regard to the matters raised, please direct them to Council's Manager (Civil Works), Gerard Read on 4030 3970.

Yours faithfully

for NP Briggs
CHIEF EXECUTIVE OFFICER
