**Attention: M/s Christine McDonald**

Dear M/s McDonald,

I refer to the e-attachment.

It constitutes the official Submission of The Republican Party of Australia [aka RPA or The Australian Republicans].

There are no apologies for this rather truncated Submission, per se, because I/we in The RPA believe in the merits of *the KISS principle* – keep it simple and straightforward!

Anyway, we are “on the record” and we have honoured our commitment to our fellow-Republican Gatherers (who are mentioned more constructively in the overall narrative of the alluded-to Submission) to participate in the proceedings which, I understand, are very much progressed at this juncture.

With every Good Wish in the Committee’s deliberations from hereon in.

Again, I re-iterate, I am Yours Patriotically,

**PETER CONSANDINE**  
For and on behalf of  
The REPUBLICAN PARTY of AUSTRALIA

Simply the Plebiscite question needs to be worded to test whether sufficient Australians, at this particular time in our evolution, deem ourselves to be sufficiently mature enough to elect or appoint some of our own as Head(s) of State...Yes or No. Period.

As with the previous Senate Inquiry into an Australian Republic – some three years ago – at Parramatta here in Sydney – I am available again to amplify my reasons for the position I have enunciated, albeit briefly, above.

Yours Patriotically,

**PETER CONSANDINE**

National Executive Director,

Founder and Bankroller-Perpetual,

REPUBLICAN PARTY of AUSTRALIA
