

A plebiscite with the next election? Sen.Brown's bill

This is a needless expense. We have recently voted on the whole Monarchy/Republic thing and it does not need raising for another decade.

We have a process for constitutional change and it does not include a plebiscite.

The proposed plebiscite shows Sen. Browns usual contempt for anything democratic.

The voters will not know what they are voting for only what they are voting against.

Our current constitutional processes are serving us well. Sen.Browns history of anarchy and support for anarchical groups is well known. We do not want our constitution trashed by this vandal.

Yours sincerely
