

Dear Sirs

I am submitting to you that I utterly reject republicanism and the unprecedented notion of an "advisory referendum" or "plebiscite" proposed by Senator Brown, which is totally unconstitutional and flies in the face of the free Australian people to remain patriotic and loyal to our Queen Elizabeth II and her throne and the flag of Australia.

I will never support republicanism, and as a 36 year old man I can assure you of many years of loyalty to the Kingdom of Australia to come

yours most sincerely

Michael Smith

God save the Queen
