

GEOFFREY and JUDITH WINDSOR

The Senate Select Committee on the USFTA
Parliament House
Canberra

We reject the USFTA, essentially because on the one hand its benefits are very uneven, in favour of the USA (much more so than predicted before agreement), and, more so, on the other hand, because it allows Trade and commercial interests, including such interests based in the USA, too much power over our democratic choice of social and environmental policies.

Yours faithfully

Geoffrey and Judith Windsor
