

Mr BRENTON HOLMES

Dear Sir

Your letter of 24.4.04
inquiry into free trade agreement with America
I can only express my horror and dismay that
Mr Howard + Mr Truss could ever think that this
agreement would be of any benefit to Australia
Canada has such agreement with America that
has proved a disaster for Canada business
and industry, surely we can learn from their
disaster along with the other South American
countries.

This agreement will lead to the loss of more
of our industries, and employment.

This agreement along with De Regulation
and the sell off of all of Electricity Water
ports, airports has already proved to be
a disaster. So why continue with more
sell off and destruction.

How could our Bio Diversist ever
consider allow the importation of Bananas. Apples
Pears Pork from countries have Diseases that
we do not have here in Australia. This is absolutely
foolish to contemplate that this agreement will be
of any benefit to the people of Australia

I can only hope and pray to God, the Senate
will reject this bad agreement.

Yours Faithfully
Alan Taylor
