

We do not think this trade agreement is fair, and the senate enquiry should not allow it to go ahead. Australia is the LOOSER in this agreement, and will continue to be in years to come as a result of this government's self - interested policies. We are not living in a democracy if the FTA goes ahead, we will become a slave nation, not the wealthy one that the government is deluded it will become if it follows this course of action.

NO FTA!!!!
