

Dear Secretary,

I am strongly opposed to the Australia/USA Free Trade Agreement.

I am upset that USA can invest \$800 million in our country without any questions asked.

I am worried about Quarantine Laws- our strict Protocol may not be adhered to.

AWB- also - USA has subsidies to wheat farmers.

Labelling laws-GM status- I don't to be able to export to EC countries- and produce some non GM food. Particularly canola- it is ludicrous to think it can be segregated.

Australia will just be taken over by USA- what with the Iraq war- and Coalition of willing- we are doing enough with USA.

I am a grain grower, sheep farmer, mother, member of NSW Women in Agriculture and Australian Women in Agriculture, also NSW Farmers Association.

Audrey Tremain
