

10/5/4

Dear Sirs

I am writing to OPPOSE any free trade deal with America. I am concerned about our ability to govern ourselves independently and ethically if we get trapped into this.

I know all my friends in Canada are appalled at the results of their free trade deal with the States.

When I was in Bali about 10 years ago I read in their local paper how the Americans had forced them to up their television content to 50% American.

Any trade deals should include all our other trading partners, so we have protection.

Though, I am sure, they are putting pressure on us to sign. This is the time to firmly refuse.

Sincerely,

Pauline
