Re USFTA

I am writing to urge the Senate NOT to pass legislation enabling the FTA to be implemented.

I feel strongly that it is not in Australia's best interest to have this arrangement with the US. The key area of sugar has been left out, we lose control over Australian content in the media, the PBS scheme will suffer and, worst of all, the implications for keeping Australia free from Genetically modified food and the associated labelling, are frightening.

Please can you consider my concerns when assessing the committee's stance on passing the legislation.

Thanks and regards
