

I want to live in Australia, not a second rate version of the USA, especially not with their considerable lack of talent as overlords. If you put to the vote whether Australians want Australia to become the 51st state of the USA, the answer would probably be no, even though there would be actual benefits to accrue. Canada made the FTA mistake. Please do not do it to us.

Dr Kim Kendall BVSc, MACVSc, Chatswood, NSW
