

I am a student studying at the University of Western Australia in Crawley, and believe that some properties of the FTA could damage not only my personal life but my ability to study. I am in full support of Linux Australia's position on the issue as outlined in their position paper (available at <http://linux.org.au/papers/fta-paper.html>). Please consider the heavy damage that the FTA could have on various aspects of our way of life in Australia.

Regards,

Matthew Heinsen Egan
