RE: Inquiry into the provisions of the Criminal Code Amendment (Suicide Related Material Offences) Bill 2004

This submission on the above Bill is made by the organisation, Right to Life Australia.

We would give our strong support to this Bill. There are frequent expressions of concern by the community about the rate of suicide in this country. To the extent that this Bill may help protect at least some of those people who are vulnerable to committing suicide, we would urge that it be passed into legislation.
