

Matta

05/01/06

Dear Secretary,

My name is Karl Ferrugia, and I'm thirteen years old. I'm the oldest boy of the family. I also attend secondary school and am in grade 10, that is 2 years prior to finishing secondary school.

Due to the fact that my mother was Australian I feel that I'm Australian already because when my mother was young she had the Australian citizenship. I strongly believe that Australia can also benefit from us because it will have more hardworking people which will be us Maltese Australians. We can also take our cultural experiences along with us to Australia.

By becoming Australians we will gain more freedom and opportunities to a better life as we will have access for dual citizenship. As I already said if we are denied Australia will lose hardworking people and our cultural experiences.

Yours Sincerely
Karl Ferrugia
