

Dear Senate Inquiry - Shared Parental Responsibility Bill 2005

This is a my submission to the Senate Inquiry into the provisions of the Family Law Amendment (Shared Parental Responsibility) Bill 2005

Please remember all the statistics I can find indicate step dads are more likely to violate or assault kids than the kids own fathers. Where do step dads live? With the ex wives!

So taking the kids to live away from their dad who is far more unlikely to harm his own kids and like myself try to be extra careful with them knowing they were "robbed" a normal family life like my ex wife and I had, just because she slept around until she did not know what she wanted. How can a woman like that be a good example for our kids, but the court and system we have are so biased in the favor of a woman there is no hope with the current system that the kids will get what's best for them until it is changed to at least presumed and legislated 50/50 care / parenting.

Thank you for reading my submission
