

Dear Senate Inquiry - Shared Parental Responsibility Bill 2005

This is a my submission to the Senate Inquiry into the provisions of the Family Law Amendment (Shared Parental Responsibility) Bill 2005

To listen to the anti-family policies and beliefs of the Democrats and the Greens is to abrogate your responsibilities and duty of care to properly represent the wishes of the Australian public.

The Greens, in particular, have policies that are so socially "permissive", so grossly irresponsible, so inaccurate, so far removed from reality and and so anti-family that their opinions can only be considered as a sick joke on this vital issue of shared parenting.

I challenge the Greens and the gutless Democrats (who also gave in to the GST we were never, ever going to have) to provide evidence to support their outrageous claims as listed here:

a)Current family laws are adequate. Why is the government proposing changes to family law?

b)Concerns that shared parenting will be detrimental to mothers who are predominantly victims of domestic violence

c)Concerns that greater fatherly involvement in the lives of their children will be a risk to the safety of their children

The cornerstone of any civilisation is the strength, unity and security of the basic family unit. Children need the love of both parents, even if the parents separate, in fact, children need them both at this time even more so.

When the basic family unit has been destroyed, ultimately the country will fall and this will be the result of what the Greens and the Democrats are opposing.

I urge you to oppose anything these two irresponsible parties put forward and make legislation that is truly in the best interests of the children and BOTH parents. Equal time shared parenting is a MUST.

Thank you for reading my submission
